

Guidelines for working with TIWA case studies - worksheet

Please ready the selected or proposed case study. Once done, please read and answer the questions below:

Please identify **the main factor** that contributed to the situation that required reaction (context):

Was this a unique situation? Or is it a situation that could be common to various companies? Identity some similar workplace environments the CS could be transferable to (key facts):

What was the proposed solution?

Please create a hot 5 step guidelines one could implement:

Can you deduct a measure/action (alternatives) to prevent a situation in the first place?

Now be creative 😊

Is it possible to propose a tip, main thought, a word, a saying that would summarize the selected case study?
